ST. JOHN'S UNIVERSITY COLLEGE OF PHARMACY AND HEALTH SCIENCES

PHARMACEUTICAL INDUSTRY FELLOWSHIP PROGRAM

In partnership with

**ST. JOHN'S
UNIVERSITY**

A MESSAGE FROM OUR CHIEF MEDICAL OFFICER

"Dear Prospective Fellow,

On behalf of American Regent's Medical Department (ARMD), we would like to thank you for considering a fellowship with American Regent. As a leading pharmaceutical company and injectable manufacturer, we are committed to advancing patient health and well-being through innovation and a strong focus on product safety. Our Medical Affairs Fellowship is designed to cultivate the next generation of pharmaceutical leaders by providing invaluable experience and skills to drive progress in patient care. We are excited about the opportunity to support your development and help you make a significant impact in the healthcare industry.

We look forward to your application and the possibility of welcoming you to our team."

Ravi Tayi, MD, MPH
VP, Chief Medical Officer

ABOUT AMERICAN REGENT

About American Regent:

American Regent has a long history in the pharmaceutical community. Since the launch of our company under the name American Quinine in 1967 to our recent product launches of Tralement (2020), Multrys (2021), and an expanded indication for Injectafer for patients with heart failure (2023), American Regent keeps the health of patients as our guiding principle.

American Regent is a leading manufacturer of high quality generic and branded specialty injectables. We maintain a robust and diversified pipeline for future growth encompassing multiple disease indications, along with a proven record of fast-tracking both NDAs and ANDAs with innovative regulatory strategies. American Regent remains in an excellent position for future growth because of our capabilities in the area of pharmaceutical product development. Our development capabilities include hormones, controlled substances, cytotoxic molecules, imaging products, antibiotics, nutritional products, and complex generics (peptides, microspheres, lipid based nano-carriers drug delivery systems).

The American Regent team is committed to providing the ever-changing healthcare marketplace with a growing and diversified portfolio of branded and generic specialty injectable products for healthcare providers and their patients.

Reliability	Speed	Flexibility	Quality
Between all three of our US manufacturing sites, we have the capability to manufacture over 70 million units annually	Developing excellence in speed is a critical focus for American Regent, because we believe patients should never have to wait for the medications they need	American Regent, with its US-based manufacturing and short delivery timelines, has flexibility in production scheduling—ensuring rapid responses to changes in market demand	When it comes to quality, our organization focuses on prevention rather than remediation

Currently Supported Products

Injectafer®, the Injectafer® logo, Venofer®, and the Venofer® logo are trademarks of Vifor (International), Inc., Switzerland. Tralement® is a registered trademark of American Regent, Inc. Multrys® is a registered trademark of American Regent, Inc. Patents pending.

MEDICAL AFFAIRS

Pharmacists in the Medical Affairs Department provide efficient and unbiased medical information concerning the company's pharmaceutical products to healthcare professionals, consumers, and internal associates.

Currently recruiting one fellow for 2025-2027

1 st Year Core Rotations			
Medical Information	Publications / Scientific Communications	Promotional Material Review	Medical Science Liaison (MSL)

Medical Affairs Overview:

- Develop and utilize strong clinical trial analysis skills to evaluate medical literature, interpret scientific data, and support healthcare professionals and consumers
- Create and present educational lectures on products and disease states to internal and external stakeholders
- Attend medical/scientific meetings to ensure an in-depth understanding of the latest advances and updated scientific information that will help shape our publication and Investigator Sponsored Study strategies
- Work with the Medical Affairs team including, but not limited to: Medical Communications Leads, Medical Science Liaisons, Medical Directors, Medical Writers, and other relevant team members on the development and approval of core clinical material
- Manage company expectations while effectively integrating key clinical messages for dissemination to a wide array of audiences
- Acquire the medical expertise and experience to thrive in the pharmaceutical industry while complying with FDA and PhRMA regulations

Medical Science Liaison (MSL) Overview:

- Establish and maintain working relationships with healthcare professionals
- Provide education by creating scientific dialogue around American Regent products and sponsored research
- Shadow the Medical Science Liaison (MSL) team and attend relevant conferences to deepen their understanding of Medical Affairs in a professional, pharmaceutical industry setting

*Fellows will be required to execute a confidentiality agreement with American Regent.

FELLOWSHIP ELECTIVE ROTATIONS

The second-year fellow will have the option to rotate through a variety of functional areas to foster professional growth and to identify areas of interest.

Second Year Rotations:

*Second-year elective rotations include, but are not limited to Clinical Research and Development, Regulatory Affairs, Safety/Pharmacovigilance and Commercial & Marketing. Rotation availability is subject to change.

Clinical Research and Development:

- Learn the operational aspects of clinical trial designs from initiation, execution, and study completion
- Work with Clinical Operations to manage and update study time lines and budgets, and participate in the processes of ongoing data review, analysis, and reporting while understanding the roles and responsibilities of clinical team members
- Understand the lifecycle of clinical trials, identify study milestones, and develop study timelines that align with the clinical development plan
- Utilize clinical research skills inclusive of systematic literature reviews, oral and written communication skills, and the preparation of abstracts, articles in scientific journals, and study training materials for internal and external stakeholders

Regulatory Affairs:

- Gain an understanding of the regulations, guidelines, standard practices, and roles of Regulatory Strategy in the development of products for commercialization
- Provide strategic input to support the development, filing, and regulatory approval of new drug products
- Participate in planning and preparing for interactions with Regulatory Health Authorities, and generate responses to inquiries
- Contribute to drafting regulatory documents and participate in filing and maintaining Investigational New Drugs (INDs) and New Drug Applications (NDAs)

Safety/Pharmacovigilance:

- Develop an understanding of pharmacovigilance processes within the Argus Safety Database
- Prepare and review aggregate reports under the supervision of the PV Department
- Participate in surveillance and signal detection for company products in a variety of different therapeutic areas
- Establish knowledge of MedDRA coding and applicable regulatory requirements

Commercial & Marketing:

- Provide input into commercial strategy, messaging, and tactical development
- Translate pertinent clinical study results into marketing and educational tools
- Train sales personnel on clinical subject matter
- Develop the required skills to synthesize information, generate insights, formulate solutions, and present findings to internal and external stakeholders

PROGRAM LEADERSHIP

"The American Regent Medical Affairs Fellowship represents an excellent opportunity for a PharmD to gain pharmaceutical industry experience and expand their clinical knowledge through active participation on the Medical Affairs team."

The fellowship provides an opportunity to obtain an understanding of the role of Medical Affairs in the biopharmaceutical industry; develop clinical data analysis, interpretation, and communication skills; gain the ability to recognize unmet patient needs and render clinical insights; and develop industry-appropriate professional skills. The fellow will interact with Medical Information, Medical Communications, Scientific Alliances, Medical Education, Medical Director, and Medical Science Liaison teams, and with key cross-functional groups including Safety, Regulatory, and Clinical Development."

Syed Numan, MD, MBA, PMP

Senior Medical Director, Head of Medical Affairs

"The American Regent Medical Affairs Fellowship is geared for highly motivated individuals seeking to enhance their careers and obtain pharmaceutical industry experience. This two-year program provides a unique opportunity for fellows to develop key skills in Medical Affairs while offering flexibility to explore additional functional areas based on personal interest. The fellows become an integral part of the American Regent team and will gain experience in understanding strategy implementation to support scientific and commercial goals. This fellowship program will provide direct mentorship to foster professional growth and development as well as essential experiences for a successful career in the pharmaceutical industry."

Kelly Mahoney, PharmD, RPh

Senior Manager, Medical Affairs
Fellowship Program Director, Medical Information Preceptor

"It is an honor and pleasure serving as Faculty Coordinator for this wonderful post-doctoral fellowship opportunity offered through St. John's University and American Regent. Fellows completing this exceptional two-year program are highly marketable and stand to secure cutting-edge positions within the pharmaceutical industry primarily due to the mentorship, professional project opportunities, research experience, and exposure to multiple cross-functional areas within American Regent."

William M. Maidhof, PharmD

Associate Professor/Industry Professional
Fellowship Coordinator – St. John's University and American Regent, Inc.

"For the past 15 years St. John's University, College of Pharmacy and Health Sciences, has partnered with American Regent to provide Doctor of Pharmacy graduates with structured postgraduate education fellowships that develop leadership, practice, research, and teaching skills to succeed in the industry today and in the future. The University is proud of its longstanding affiliation with American Regent and the success of our past and current fellows."

Joseph M. Brocovich, PharmD

Associate Dean for Pharmacy Programs - St. John's University

CURRENT FELLOWS

"The American Regent and St. John's University fellowship program offers the prospective fellow a unique opportunity to explore various elements of Medical Affairs, as well as other areas of interest in different functional areas that align with their professional goals. This robust fellowship program within a mid-sized company is structured to be flexible to allow the fellow to gain invaluable experience and create a meaningful impact in the business. All of the mentors are always ready to lend a helping hand to help you reach your goals for the most rewarding experience."

The academic component at St. John's University allows the fellow to gain research and teaching experience, as well as participate in graduate degree programs. At St. John's University, you will truly feel like you are part of a family with amazing mentors that promote personal and professional growth, networking, and expanding your knowledge and skills. This program will set a foundation for a successful career in the pharmaceutical industry."

Christina Fridman, PharmD

Medical Affairs
Second-year Fellow
Temple University School of Pharmacy

"The American Regent and St. John's University fellowship program enables fellows to develop the essential skills needed to become competitive professionals in the pharmaceutical industry. This fellowship is unique because it allows fellows the freedom to choose areas of interest and make specific goals. All mentors in the program are dedicated to providing the best possible learning experiences. The program's structure allows fellows to gain an understanding of the various areas within Medical Affairs."

The partnership with St. John's University enhances fellows' professional development by offering graduate degree classes, academic experience, and research projects. At St. John's University, you will receive the support of all mentors, ensuring the best possible experiences and aiding your growth both professionally and personally. This experience will equip prospective fellows for a successful future in the pharmaceutical industry."

Peter Attia, PharmD

Medical Affairs
First-year Fellow
Saint Joseph's University, Philadelphia College of Pharmacy

The American Regent fellowship recruits yearly for Medical Affairs. Fellowships are remote with professional development days located on the St. John's University campus in Queens, NY.

**ST. JOHN'S
UNIVERSITY**

St. John's University College of Pharmacy and Health Sciences provides undergraduate, graduate, and post-doctoral programs focused on global impact, which cultivates the tools necessary to find solutions to complicated healthcare issues. Located in Queens, NY, St. John's commitment to excellence and renowned faculty inspire students to practice patient-centered care and shape the future of healthcare.

St. John's University will empower diverse learners with quality education for life. Through innovative teaching, research, and service we will foster rational, spirited inquiry and intelligent reflection. Our student centered approach will be shaped by a caring, energized, nimble culture. Enlivened by our distinctive mission, our graduates will excel in the competencies and values required for leadership and service in a rapidly evolving global community. As a Catholic and Vincentian university, we will be known worldwide for addressing issues of poverty and social justice.

Learn more at: <https://www.stjohns.edu>

Fellows at St. John's:

The fellow will be a full time St. John's University employee. A competitive stipend will be provided, as well as options for comprehensive health, dental, and vision insurance.

Each fellow is responsible for completing a semester-long teaching requirement at the university and an additional fellowship research project that may include original research, or the development, enhancement, or evaluation of some aspect of operations or patient care services.

Upon Fellowship Completion:

Additional Fellowship Opportunities:

- The fellow may apply for an affiliate faculty appointment for St. John's University College of Pharmacy and Health Sciences
- Precept St. John's University Doctor of Pharmacy Candidates
- Perform collaborative research with St. John's faculty
- Enroll with tuition remittance for Graduate Degree programs (Master's or PhD degrees)

APPLY NOW
