

2026-2028

ST. JOHN'S UNIVERSITY COLLEGE OF PHARMACY AND HEALTH SCIENCES

PHARMACEUTICAL INDUSTRY FELLOWSHIP PROGRAM

In partnership with

**ST. JOHN'S
UNIVERSITY**

A MESSAGE FROM OUR CHIEF MEDICAL OFFICER

"Dear Prospective Fellow,

On behalf of American Regent's Medical Department (ARMD), we would like to thank you for considering a fellowship with American Regent. As a leading pharmaceutical company and injectable manufacturer, we are committed to advancing patient health and well-being through innovation and a strong focus on product safety. Our Medical Affairs Fellowship is designed to cultivate the next generation of pharmaceutical leaders by providing invaluable experience and skills to drive progress in patient care. We are excited about the opportunity to support your development and help you make a significant impact in the healthcare industry.

We look forward to your application and the possibility of welcoming you to our team."

Ravi Tayi, MD, MPH
VP, Chief Medical Officer

ABOUT AMERICAN REGENT

About American Regent:

American Regent has a long history in the pharmaceutical community. Since the launch of our company under the name American Quinine in 1967 to our recent product launches of Tralement® (2020), Multrys® (2021), and an expanded indication for Injectafer® for patients with heart failure (2023), American Regent keeps the health of patients as our guiding principle.

American Regent is a leading manufacturer of high quality generic and branded specialty injectables. We maintain a robust and diversified pipeline for future growth encompassing multiple disease indications, along with a proven record of fast-tracking both NDAs and ANDAs with innovative regulatory strategies. American Regent remains in an excellent position for future growth because of our capabilities in the area of pharmaceutical product development. Our development capabilities include hormones, controlled substances, cytotoxic molecules, imaging products, antibiotics, nutritional products, and complex generics (peptides, microspheres, lipid based nano-carriers drug delivery systems).

The American Regent team is committed to providing the ever-changing healthcare marketplace with a growing and diversified portfolio of branded and generic specialty injectable products for healthcare providers and their patients.

| Reliability | Speed | Flexibility | Quality |
|---|---|--|--|
| Between all three of our US manufacturing sites, we have the capability to manufacture over 70 million units annually | Developing excellence in speed is a critical focus for American Regent, because we believe patients should never have to wait for the medications they need | American Regent, with its US-based manufacturing and short delivery timelines, has flexibility in production scheduling—ensuring rapid responses to changes in market demand | When it comes to quality, our organization focuses on prevention rather than remediation |

Currently Supported Products

Venofer®
iron sucrose injection, USP

injectafer®
ferric carboxymaltose injection

Tralement®
(trace elements injection 4*, USP)
*Each mL contains zinc 3 mg, copper 0.3 mg, manganese 55 mcg, and selenium 60 mcg.

Multrys®
(trace elements injection 4*, USP)
*Each mL contains zinc 1,000 mcg, copper 60 mcg, manganese 3 mcg, and selenium 6 mcg.

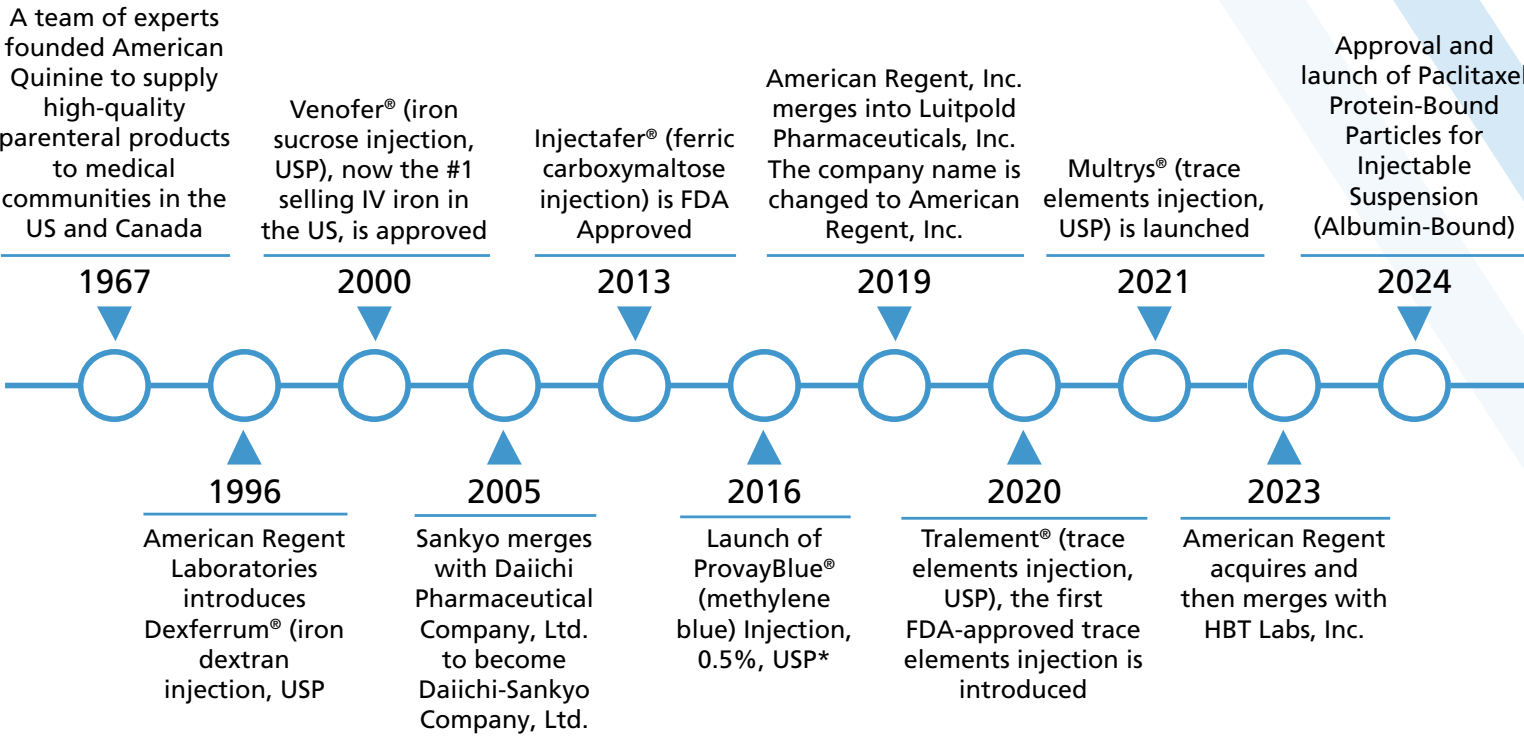

Paclitaxel
Protein-Bound Particles
for Injectable Suspension
(Albumin-Bound)

Injectafer®, the Injectafer® logo, Venofer®, and the Venofer® logo are trademarks of Vifor (International), Inc., Switzerland. Tralement® and Multrys® are registered trademarks of American Regent, Inc. ProvayBlue® is a registered trademark of Provepharm Life Solutions, France.

MEDICAL AFFAIRS

Pharmacists in the Medical Affairs Department provide efficient and unbiased medical information concerning the company’s pharmaceutical products to healthcare professionals, consumers, and internal associates.

Currently recruiting one fellow for 2026-2028

| 1 st Year Core Rotations | | | |
|-------------------------------------|--|-----------------------------|-------------------------------|
| Medical Information | Publications / Scientific Communications | Promotional Material Review | Medical Science Liaison (MSL) |

Medical Affairs Overview:

- Develop and utilize strong clinical trial analysis skills to evaluate medical literature, interpret scientific data, and support healthcare professionals and consumers
- Create and present educational lectures on products and disease states to internal and external stakeholders
- Attend medical/scientific meetings to ensure an in-depth understanding of the latest advances and updated scientific information that will help shape our publication and Investigator Sponsored Study strategies
- Work with the Medical Affairs team including, but not limited to: Medical Communications Leads, Medical Science Liaisons, Medical Directors, Medical Writers, and other relevant team members on the development and approval of core clinical material
- Manage company expectations while effectively integrating key clinical messages for dissemination to a wide array of audiences
- Acquire the medical expertise and experience to thrive in the pharmaceutical industry while complying with FDA and PhRMA regulations

Medical Science Liaison (MSL) Overview:

- Establish and maintain working relationships with healthcare professionals
- Provide education by creating scientific dialogue around American Regent products and sponsored research
- Shadow the MSL team and attend relevant conferences to deepen their understanding of Medical Affairs in a professional, pharmaceutical industry setting

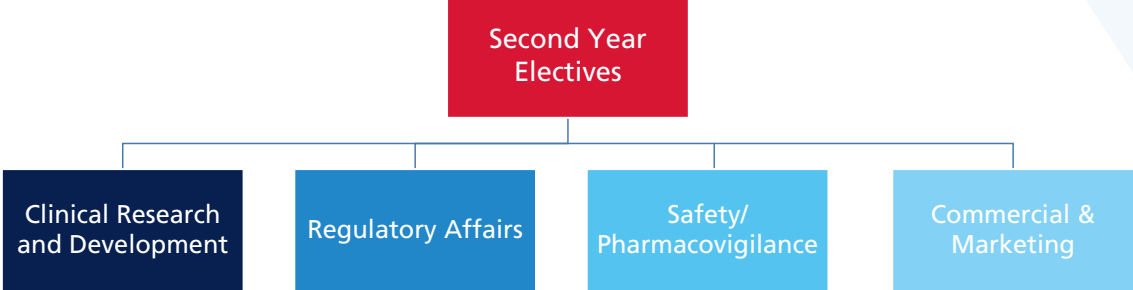

Fellows will be required to execute a confidentiality agreement with American Regent.

FELLOWSHIP ELECTIVE ROTATIONS

The second-year fellow will have the option to rotate through a variety of functional areas to foster professional growth and to identify areas of interest.*

Second Year Rotations:

*Rotation availability is subject to change.

Clinical Research and Development:

- Learn the operational aspects of clinical trial designs from initiation, execution, and study completion
- Work with Clinical Operations to manage and update study time lines and budgets, and participate in the processes of ongoing data review, analysis, and reporting while understanding the roles and responsibilities of clinical team members
- Understand the lifecycle of clinical trials, identify study milestones, and develop study timelines that align with the clinical development plan
- Utilize clinical research skills inclusive of systematic literature reviews, oral and written communication skills, and the preparation of abstracts, articles in scientific journals, and study training materials for internal and external stakeholders

Regulatory Affairs:

- Gain an understanding of the regulations, guidelines, standard practices, and roles of Regulatory Strategy in the development of products for commercialization
- Provide strategic input to support the development, filing, and regulatory approval of new drug products
- Participate in planning and preparing for interactions with Regulatory Health Authorities, and generate responses to inquiries
- Contribute to drafting regulatory documents and participate in filing and maintaining Investigational New Drugs (INDs) and New Drug Applications (NDAs)

Safety/Pharmacovigilance:

- Develop an understanding of pharmacovigilance processes within the Argus Safety Database
- Prepare and review aggregate reports under the supervision of the PV Department
- Participate in surveillance and signal detection for company products in a variety of different therapeutic areas
- Establish knowledge of MedDRA coding and applicable regulatory requirements

Commercial & Marketing:

- Provide input into commercial strategy, messaging, and tactical development
- Translate pertinent clinical study results into marketing and educational tools
- Train sales personnel on clinical subject matter
- Develop the required skills to synthesize information, generate insights, formulate solutions, and present findings to internal and external stakeholders

PROGRAM LEADERSHIP

“The American Regent Medical Affairs Fellowship represents an excellent opportunity for a PharmD to gain pharmaceutical industry experience, expand their scientific knowledge, and build business acumen to be successful in their pharma career. The fellowship provides an opportunity to be an integral part of the medical affairs team with exposure to key aspects of medical affairs strategy in the pre-launch, launch, and post-launch space. The fellow will gain experience and have the opportunity to lead various initiatives within medical affairs sub-teams including scientific communications, medical science liaison team, educational grants, medical training, and medical information. The fellow will interact with key cross-functional groups including the Marketing Team, Clinical Development, Safety, and Regulatory. Through the program, the fellow will build expertise in medical affairs strategic and tactical execution, cross-functional collaboration, data generation and dissemination, and external stakeholder engagement, thereby building the foundation for success in a multitude of roles in the pharmaceutical industry.”

Hina Japes, PharmD
Head of Medical Affairs

“The American Regent Medical Affairs Fellowship is geared for highly motivated individuals seeking to enhance their careers and obtain pharmaceutical industry experience. This two-year program provides a unique opportunity for fellows to develop key skills in Medical Affairs while offering flexibility to explore additional functional areas based on personal interest. The fellows become an integral part of the American Regent team and will gain experience in understanding strategy implementation to support scientific and commercial goals. This fellowship program will provide direct mentorship to foster professional growth and development as well as essential experiences for a successful career in the pharmaceutical industry.”

Kelly Mahoney, PharmD, RPh
Senior Manager, Medical Affairs
Fellowship Program Director, Medical Information Preceptor

“It is an honor and pleasure serving as Faculty Coordinator for this wonderful post-doctoral fellowship opportunity offered through St. John’s University and American Regent. Fellows completing this exceptional two-year program are highly marketable and stand to secure cutting-edge positions within the pharmaceutical industry primarily due to the mentorship, professional project opportunities, research experience, and exposure to multiple cross-functional areas within American Regent.”

William M. Maidhof, PharmD
Associate Professor/Industry Professional
Fellowship Coordinator – St. John’s University and American Regent, Inc.

“For the past 15 years St. John’s University, College of Pharmacy and Health Sciences, has partnered with American Regent to provide Doctor of Pharmacy graduates with structured postgraduate education fellowships that develop leadership, practice, research, and teaching skills to succeed in the industry today and in the future. The University is proud of its longstanding affiliation with American Regent and the success of our past and current fellows.”

Joseph M. Brocavich, PharmD
Associate Clinical Professor - St. John’s University

CURRENT FELLOWS

“The American Regent and St. John’s University fellowship program enables fellows to develop the essential skills needed to become competitive professionals in the pharmaceutical industry. This fellowship is unique because it allows fellows the freedom to choose areas of interest and make specific goals. All mentors in the program are dedicated to providing the best possible learning experiences. The program’s structure allows fellows to gain an understanding of the various areas within Medical Affairs.

The partnership with St. John’s University enhances fellows’ professional development by offering graduate degree classes, academic experience, and research projects. At St. John’s University, you will receive the support of all mentors, ensuring the best possible experiences and aiding your growth both professionally and personally. This experience will equip prospective fellows for a successful future in the pharmaceutical industry.”

Peter Attia, PharmD
Medical Affairs
Second-year Fellow
Saint Joseph’s University, Philadelphia College of Pharmacy

“The American Regent and St. John’s University fellowship program provides an invaluable opportunity for prospective fellows to immerse themselves in various functional areas within Medical Affairs, while exploring other functional areas aligned with their career goals. Designed within a mid-sized company, this fellowship program offers flexibility to foster meaningful learning experiences and impactful contributions to the business. Dedicated mentors are always available to support fellows in achieving their professional goals and maximizing their experience.

The collaboration with St. John’s University enriches the fellowship by offering academic growth through research, teaching, and graduate coursework. At St. John’s, fellows become part of a close-knit community where mentors prioritize personal and professional development, networking, and skill enhancement. This fellowship serves as a solid foundation for building a rewarding career in the pharmaceutical industry.”

Nicole Conciardo, PharmD, RPh
Medical Affairs
First-year Fellow
St. John Fisher University Wegmans College of Pharmacy

The American Regent fellowship recruits yearly for Medical Affairs. Fellowships are remote with professional development days located on the St. John’s University campus in Queens, NY.

Associate Director, Clinical Development, Stealth BioTherapeutics, 2020
Senior Clinical Development Specialist, Stealth BioTherapeutics, 2018-20
Clinical Research & Development Fellow, 2016-18
- Anna Krupa, PharmD, RPh, MS**
Clinical Scientist (AD), MorphoSys, 2023-Present
Global Senior Clinical Scientist, CSL Behring, 2019-2023
Clinical Research & Development Fellow, 2017-19

St. John's University College of Pharmacy and Health Sciences provides undergraduate, graduate, and post-doctoral programs focused on global impact, which cultivates the tools necessary to find solutions to complicated healthcare issues. Located in Queens, NY, St. John's commitment to excellence and renowned faculty inspire students to practice patient-centered care and shape the future of healthcare.

St. John's University will empower diverse learners with quality education for life. Through innovative teaching, research, and service we will foster rational, spirited inquiry and intelligent reflection. Our student centered approach will be shaped by a caring, energized, nimble culture. Enlivened by our distinctive mission, our graduates will excel in the competencies and values required for leadership and service in a rapidly evolving global community. As a Catholic and Vincentian university, we will be known worldwide for addressing issues of poverty and social justice.

Learn more at: <https://www.stjohns.edu>

Fellows at St. John's:

The fellow will be a full time St. John's University employee. A competitive stipend will be provided, as well as options for comprehensive health, dental, and vision insurance.

Each fellow is responsible for completing a semester-long teaching requirement at the university and an additional fellowship research project that may include original research, or the development, enhancement, or evaluation of some aspect of operations or patient care services.

Upon Fellowship Completion:

Additional Fellowship Opportunities:

- The fellow may apply for an affiliate faculty appointment for St. John's University College of Pharmacy and Health Sciences
- Precept St. John's University Doctor of Pharmacy Candidates
- Perform collaborative research with St. John's faculty
- Enroll with tuition remittance for Graduate Degree programs (Master's or PhD degrees)

APPLY NOW

Eligibility:

Potential applicants for the St. John's University/American Regent fellowship programs must meet the following criteria:

- Graduate from an Accreditation Council for Pharmacy Education (ACPE) accredited Doctor of Pharmacy Program
- Genuine interest in the pharmaceutical industry
- Eligible to work in the United States

How to Apply:

Please electronically send all required items and correspondence to:

stjfellowships@stjohns.edu

Required items:

Deadlines:

| | |
|--|------------------|
| Curriculum Vitae | October 22, 2025 |
| Letter of Intent | October 22, 2025 |
| College Transcript *does not have to include the fall semester grades | October 29, 2025 |
| Three Letters of Recommendation | October 29, 2025 |

Schedule an Interview:

Virtual interviews will be provided upon submission of a Letter of Intent and CV beginning early November.

Note: The American Regent fellowship recruits yearly for Medical Affairs. Fellowships are remote with development days organized by St. John's University.

Questions:

Please contact stjfellowships@stjohns.edu for any and all questions regarding the fellowship program or application process.

Alliance of Industry Fellowship Associates Fellowship Offers

Please see the statement below from AIFA, whose Member Fellowship Programs collectively offer the majority of available fellowship positions.

The choice of a Post-Doctoral Industry Fellowship is an important decision. AIFA exists to promote a consensus first offer date for all Fellowship positions. We believe this is a positive reflection of the cultures our Programs offer, and that culture is a critical consideration in choice of Fellowship.

We hope that other academic and non-academic Fellowship Programs will NOT pressure candidates to accept offers prior to this AIFA-aligned offer date. Candidates should feel free to request an extension for any earlier offer to allow them to consider their options.

AIFA-aligned first offer date: December 12, 2025.
